

## **Pond Hockey 2009**

The St. Peters Hockey Club in conjunction with the city of St. Peters will be offering weekly **Pond Hockey** sessions in the Mite, Squirt, Pee-Wee and Bantam age divisions beginning in mid-March and continuing throughout the Spring and Summer months. Our **Pond Hockey** program is designed for those players who have other commitments during the Spring and Summer months but want to keep up their skill level when their schedule permits.

**Pond Hockey** is a throw-back to the golden age of the sport when friends would get together during the winter months after school and on the weekends to play the great game of ice hockey at the neighborhood pond. Games were simple; choose up sides and just play. Need a goalie, no problem build a snowman and stick him in the nets. Lose a puck in the snow-bank, no problem somebody had one hidden inside their thigh pad. Disagreement, no problem resolve it and play on. Get too cold, no problem warm up by the fire.

### **Program Highlights**

- Scrimmage format
- 1 hour and 15 minutes ice sessions
- Sessions designated by age divisions
  - Mite Division 2001 and 2002 birth years
  - Squirt Division 1999 and 2000 birth years
